PROFILE

Full-stack web developer with hands-on experience building and deploying AI-powered and data-driven applications using the MERN stack. Proficient in designing RESTful APIs, integrating third-party services, and delivering end-to-end web solutions. Currently pursuing B.Tech in Computer Science at ITER, SOA University.

EDUCATION

Institute of Technical Education and Research (ITER), SOA University

B.Tech Computer Science and Engineering | CGPA: 7.73

Bhubaneswar

2023 – Present

Mother's Public School, Bhubaneswar

XII (CBSE) | 78%

2022 – 2023

TECHNICAL SKILLS

Languages : Python, Java

Web Development : HTML, CSS, JavaScript, MERN Stack

Libraries & Frameworks : React.js, Node.js, Express.js, Socket.io, Chart.js, NumPy, Pandas

Databases : MySQL, MongoDB

Core Concepts : Data Structures & Algorithms, OOP, Computer Networking, REST APIs, DBMS, Cryptography Basics

PROJECTS

CompanyRadar | Full-Stack AI Business Intelligence Platform | Live Demo | GitHub

2026

- Built and deployed a full-stack AI-powered business intelligence platform using HTML, CSS, JavaScript, Node.js, and Express.js
- Orchestrated 4 third-party APIs (Gemini AI, NewsAPI, SerpAPI, Twelve Data) with retry mechanisms and error handling to aggregate real-time business, market, and financial intelligence
- Developed automated SWOT analysis, competitor mapping, growth opportunity identification, and risk assessment features using AI-generated insights
- Designed RESTful backend services with robust error handling for reliable multi-source data processing
- Built an interactive analytics dashboard with dynamic DOM manipulation and Chart.js visualizations to present company performance trends and strategic insights

Expense Tracker Application | Full-Stack Finance Management App | GitHub

2026

- Developed a full-stack finance management application with JWT-based authentication and bcrypt password hashing for secure user sessions
- Built RESTful APIs using Express.js and integrated MongoDB with category-based transaction aggregation for efficient data organization
- Designed an interactive dashboard with dynamic Chart.js charts displaying monthly spending trends and financial summaries
